

SCHOOL WILL BE REPAIRED; FALL ELECTION VOTED

The annual school election Monday was unmarked by any excitement, only a moderate number of votes being cast, and of these, save three scattering ones, went to Guy E. Davis and D. L. Quirk, jr., each of whom received 58 votes.

The attendance at the annual school meeting in the evening was good. The resolution indicated in the report following was put through with no opposition, and doubtless the board will decide to call the special election sometime during the fall. The first step in the affair of the new building project was taken when Superintendent Arbaugh attached to his report to the board in March the following resolution: "Resolved, That the Board of Trustees recommend to the District that a building be erected as outlined by Supt. Arbaugh, and that steps be taken to demonstrate the need and cost of the same." This embodies the attitude of the board towards the proposition.

The proposition as represented was enlarged by the phrase relating to the Prospect school. The interior of this school-house is most unattractive; it is dingy, lacks modern ventilation and its stairway is narrow and steep. The building is over forty years old and a new four-room building, constructed so that additions could be added as required, is what the proposal contemplates.

The minutes of the last annual meeting were read and approved. The reports of the secretary and treasurer for the year 1909-10, as parts of the minutes, were, on motion of Mr. Magers, omitted from the reading.

Report of receipts and expenditures for the year 1910-11 were read and accepted. An estimate of expenditures for the ensuing year was read, and the following resolution was adopted: That the sum of \$17,000 be raised in addition to the mill tax, in District No. 4, City and Township of Ypsilanti, for the support of the schools in said district the ensuing year, and that the Board is hereby instructed to notify the supervisors of said city and township to spread the same pro rata on their respective rolls.

The following resolution was offered by Mr. John P. Kirk, supported by Prof. J. P. Everett, and unanimously carried:

Resolved, That the Board of Education of School District, No. 4, Ypsilanti, be authorized to prepare plans and estimates for carrying out the proposition for a grade school and gymnasium to be erected on the site known as the Kinne lot; also, to make such improvement of the Prospect school building, either by repair or by the erection of a new building, as the Board of Education shall determine; and,

Resolved, That a special election be called, as soon as plans and estimates have been prepared, for the purpose of determining whether the qualified electors of said district are willing to vote such sum as the Board of Education shall have determined to be necessary for carrying out their plans.

HIGH SCHOOL SUPERVISOR OF MUSIC TO PURSUE STUDIES DURING SUMMER

Miss Grace Giberson, supervisor of music and drawing in the Ypsilanti public schools, left Monday for Evanston, Illinois, where she will further pursue her studies at the Northwestern School of Methods. Ypsilanti is to be congratulated on having retained Miss Giberson for next year, for her progressive methods, her tactful administration of her work and her tireless activity in her department have given the highest satisfaction. Several creditable organizations have arisen during the year, chief among which have been the girls' glee club, the boys' glee club and the high school orchestra, the last especially making an appreciative place in the school life. Its playing at the commencement banquet was especially remarked.

Miss Giberson has also been most obliging on many occasions. The G. A. R. felt very much indebted to her for the cantata of Barbara Fritchie which she put on for one of their camp fires.

TAYLOR-CLARK WEDDING.

The marriage of Dr. Sereno B. Clark of Berkeley, Calif., and Mrs. Carrie Hall Taylor of Detroit will take place July 12 at the home of the bride at Bad Axe. Dr. Clark substituted as head of the ancient language department at the Normal College during Dr. D'Ooge's absence abroad.

WELL FITTED TEACHER ENGAGED TO SUCCEED MISS BENHAM NEXT YEAR

Miss Emily C. Hollister of Galion, Ohio, has been secured to fill the place in the high school faculty left vacant by Miss Rachel Benham. Miss Hollister holds the degrees of A. B. and A. M. from the Ohio State University and has done a year of work in the University of Chicago. It is felt that a particularly happy choice has been made in bringing Miss Hollister to Ypsilanti and that the work of the department will only be strengthened thereby.

WIRE MEN PLAN FIGHT

Eighty-Three Plead Not Guilty in New York.

Contest with Government Is Begun—Have Until September 1 to File Demurrers.

New York, July 11.—Eighty-three wire manufacturers indicted June 29 under the anti-trust law on charges of restraining trade in wire products began their fight against the government by entering pleas of not guilty and obtaining a delay until Sept. 1 to enable them to file demurrers. Each man's bail was fixed at \$1,000.

Only thirty of those indicted made appearance in the United States circuit court, but District Attorney Wise said he had received assurances that the attitude of all would be practically uniform and that the rest would file formal pleas in a day or two and be included under the action of the court. Neither Herbert L. Satterlee, J. P. Morgan's son-in-law, nor Frank J. Gould was present. Mr. Satterlee entered a plea through his attorney, but Mr. Gould was not represented. The district attorney said he hoped the cases could go to trial before the end of the year.

Separate trials were asked in the cases of Henry A. Hammond and Frank M. Potter, Jr., indicted as members of the Fine Magnet Wire association.

Earthquake Shocks at Messina. Messina, Italy, July 11.—Five distinct shocks of earthquake occurred here. While no lives were lost there is the gravest feeling of apprehension.

BIG PLANS FOR THE M. E. EXCURSION

The Sunday school board of the Methodist church prefaced an important business meeting last night with a well-balanced and plentiful potluck supper. The principal topic of discussion was the forthcoming Sunday school excursion on Thursday to Belle Isle. The arrangements made were of so generous a nature that the affair will not in the least partake of a money-making project, but it is proposed on the contrary to make it a day of genuine happiness for the Sunday school children.

Mrs. William H. Deibel assumed the additional cost attached to the honor of having the first coach for her junior league people, who will wear green badges.

Special D. J. & C. cars will leave Ypsilanti at the corner of Congress and Washington streets promptly following the 8:34 limited and carrying the party to Belle Isle Bridge. Returning, they will leave the same point at 6:15 p. m. All members of the M. E. Sunday school under 12 years of age will be carried free, with the special request of the Sunday school board that they be accompanied by parents or adult. The public is cordially invited to join the excursion and Methodists and their friends are urged to feel a sense of responsibility in making this one of the largest and best events of the summer.

LAKE VESSELS IN COLLISION

Two Big Steamers Crash Together in Superior.

BOTH ARE SENT TO BOTTOM

The William H. Mack and the John Mitchell Crash During a Thick Fog—Only Three Persons Known To Be Dead.

Sault Ste. Marie, Mich., July 11.—Three lives were lost on Lake Superior when the steamer John Mitchell of the Elphicke fleet of Chicago was sunk off Vermilion Point in collision with the steamer William H. Mack. The known dead are: Archie Causey, Detroit, second mate on the Mitchell; Al Clemens, steward of the Mitchell, Rochester, Ind.; George Austin, watchman of the Mitchell, Cleveland, O. Mrs. Clemens of Rochester, Ind., wife of the steward of the Mitchell, suffered a broken leg in the crash.

The steamer John Mitchell of the Elphicke fleet of Chicago was sunk off Vermilion point, sixty miles northwest of the Soo, in collision with the steamer William H. Mack. The latter was also partly submerged.

Captain Campbell of the steamer Huronic sighted two barges at anchor near a great mass of floating lumber and wreckage of Vermilion point. He feared a steamer had been towing the barges and that it struck a reef in a fog and sank. The truth as to the collision was discovered later.

The Mitchell and Mack were two of the largest ore carriers in service on the great lakes. They were 600-footers, of 10,000 tons each. Both were equipped for carrying a limited number of passengers.

Latest reports from the scene of the collision are that there was a dense fog and that the steamers met while bound in opposite directions. So thick was the fog that neither saw the other until too close together for the wheelmen to avert a crash.

Captains of both steamers ordered the boats lowered and life rafts flung out the instant of the collision. The impact was so terrific, however, that the Mitchell went down almost instantaneously, and those lost did not have a chance to fight for their lives.

A heavy sea was rolling, which made it difficult for the boats lowered from the Mack to survive. The damage to this vessel was not so great as that suffered by the Mitchell, but it filled rapidly.

Most of those on board the Mack managed to put on life belts and to launch the small boats and row a short distance from the wreck before the Mack was entirely submerged.

Player Assaults an Umpire.

Philadelphia, July 11.—Sherwood Magee made an unprovoked assault upon Umpire Finneran. The affair occurred in the third inning when, with two of the home players on the bases, Finneran called Magee out on strikes.

Pioneer Resident

Dead At Age Of 79

The death of Mrs. Mary Crawford, 79, a well known resident of this city, occurred this morning about 9 o'clock at her home on South Huron street. Mrs. Crawford had been an invalid for a number of years. The cause of death was paralysis. She was born in New York state but had spent the greater part of her life in this vicinity. She leaves one daughter, Miss Lillian Crawford, of this city, and one son, Charles Crawford, of Chatham, Ontario.

The funeral arrangements have not been completed as yet but funeral services will probably be held Thursday.

REV. LEESON MAKES PLEA FOR SIMPLE LIFE OF OLDEN TIME

The sermon preached Sunday morning by Rev. Leeson at the M. E. church was a plea for simple, real life of sentiment and sympathy and outlook.

The text is found in I Chron. 11:17: "And David longed and said, Oh, that one would give me drink of the water of the well of Bethlehem which is by the gate." Dr. Leeson said, "Childhood experiences are most persistent and happy possessions of the riper years. Time practices a gentle and justifiable deception in clothing our early experiences with a glamour of exaggeration and charm. King David, in the splendor of his triumphs as leader of his nation, finds himself and his army encamped on the very hills and plains where, as a shepherd lad, he led his flocks and he forgets the pomp and responsibility of his high station and longs again to drink of the old well at Bethlehem gate, where he had watered his flock and himself drank of the refreshing water and listened to the trickling music as it fell back in the cool depths.

"Sentiment cannot be despised in life. The springs of power and character are hidden there. An eastern college has commemorated at this commencement the name of John Howard Payne by dedicating a beautiful college gate to this author of 'Home, Sweet Home.' And he justly receives the recognition. David's picturesque longing was no idle and indifferent thing. It showed that the real things of his soul were unspoiled by the glories and exaltations which had come to him.

"Civilization tends to the artificial. The deep common experiences of the essential life are hidden and in danger of being lost to our thought. Beneath the veneer of life there is a touch of nature which makes the whole world kin.

"Childhood is the expression of this real life. Into the midst of the pedantic and caving doctors of the law, Jesus sat a little child and taught that the child, simple, unsophisticated, open-minded, was the true type of the Kingdom of God and that only as we cultivated such an attitude and temper of life are we worthy of the kingdom. The wholesome celebration of the silver wedding anniversary in the White House, with its beautiful emphasis on the beauty of the domestic life and relation, suits our democratic notions far better than the pomp and pageantry and fuss of a king's coronation.

"It is a worthy longing to wish to drink of the springs of the simple joys of life. Children are so easily pleased. In mature years we are in danger of cultivating extravagant tastes and to become dependent upon some new and strange sensation to make us happy. An automobile is not essential to happiness although some people would persuade themselves that it is so. To find contentment and joy in simple, available pleasures and pastimes is a mark of true character.

"To thirst for the old, simple friendships with which childhood is so richly blessed is a happy state of mind. Social distinctions and conventionalities are a barrier to the sweetest and truest friendships. The old pioneer days of true neighborliness held an ideal which we have largely lost sight of amid the multiplicity of social amenities.

"Innocence is a spring from which we would fain drink in the days of our acquaintance with life's seamy side. May it not be true that we are placing an overemphasis on the matter of instructing children in early years concerning the secrets of their own being and losing the sweet, simple innocence which should be the beauty of childhood?

"And, lastly, what pure and refreshing fountains are the springs of native, intuitive faith which belong to the childhood! The fallacy of the riper years is that we try to build our religion on the shifting and unreliable sands of reason and intellectual insight. Faith must have a surer foundation if it is to stand and to satisfy. It is native to the soul. It is to be felt and not figured out. Faith is to unfold normally through the years as the plant unfolds under the gentle persuasiveness of the sunshine and dew and rain. It is not mechanical. It is vital and native."

ALL AMENDMENTS PROMPTLY KILLED

Voting Shows Strength of Canadian Reciprocity Bill.

INSURGENTS' EFFORTS VAIN

Greatest Strength of Opposition Is Shown When 19 Votes Are Mustered Against One Amendment to 38 in Favor.

Washington, July 11.—The senate disposed of the Cummins and Simmons amendments to the Canadian reciprocity bill by voting them down. The roll was called on several of the amendments. On one vote the opposition to the treaty mustered 19 votes to 38 on the other side. This was their greatest strength. This vote was cast on an amendment giving the president power to revoke the duties proposed under the agreement at any time that Canada might abrogate the treaty and restore the schedule rates as they now exist. On other votes the opposition to be treaty cast from 12 to 14 votes.

Senator Thornton of Louisiana refused to vote for any more of the amendments. He said he had voted for the amendment on Saturday, but would refrain from voting in the future. This reduced Cummins' Democratic following to two, Bailey and Simmons.

Senator Simmons made the principal speech of the day. He denounced the agreement, which he said was "partly protection and partly free trade, but no tariff for revenue in it."

Several sharp clashes occurred between Democratic senators during the consideration of the amendments. Senators Bailey and Simmons on one hand contended that the Democratic party stood for tariff for revenue only and Williams and Stone taking the view that Canadian reciprocity was in line with Democratic doctrines.

The voting, as on Saturday, demonstrated the hopelessness of the effort of the insurgent Republicans to amend the reciprocity bill. They were unable at any time to make the slightest inroad on the solid support of the Canadian bill. It seems now absolutely certain that the reciprocity bill will be passed next week without amendment and the prospect for an adjournment by Aug. 1 looks brighter than ever.

Among the speeches in opposition to reciprocity were those of Senators Clapp and Dixon, insurgents.

ICE TRUST IN INDIANAPOLIS

Prosecutor May Bring Increase in Price to Attention of Grand Jury.

Indianapolis, July 11.—The increases of 5 cents per hundred pounds by ice dealers on three consecutive days and the charge by one dealer that attempts were made to force him into the combination have caused the prosecutor to present the case to the grand jury under the state anti-trust law, and an investigation will be undertaken at once.

The companies claim that the continued hot weather has exhausted their surplus stock and that they are not able to supply the demand. The price of ice earlier in the season was 30 cents per hundred pounds, but it is now 45. Patrons are being served now with only half the amount they order, the dealers saying they have not enough ice to meet the demand.

THREE SLAIN AT CHRISTENING

As Many Others Probably Fatally Slashed in Ohio Festivities.

Stuebenville, O., July 11.—Three men were slashed to death and three others were probably fatally cut in a general fight at Adena. Two are under arrest. All concerned were Polish miners.

The cutting took place at a christening and dance. The festivities were in progress all day and by midnight, it is said, all of the party were intoxicated. The men are said to have quarreled over a woman. At least ten received slight wounds in the fight and several women were hurt.

AUDITOR SHORT \$60,000

Brown-Ketcham Iron Co. Official Bound Over to Grand Jury.

Indianapolis, July 11.—Frank J. Vinson, auditor of the Brown-Ketcham Iron Co., which recently went into the hands of a receiver, was bound over to the grand jury to answer a charge of embezzlement.

The books are said to show that Vinson has stolen \$60,000 from the company in the past eight years by the sale of products for which he received checks made payable to himself and of which he made no credit in the books.

All nurses who have not already done so are urgently requested to register at their earliest opportunity.

DEATH ENDS TRAVELS

Justice Frank H. Hooker of Michigan Dies Suddenly.

Had Been on an Automobile Tour—Dies in Railway Depot in Auburn While Taking a Train.

Auburn, N. Y., July 11.—Frank A. Hooker, justice of the supreme court of Michigan, a resident of Lansing, died suddenly in the New York Central railway station. Justice Hooker, in company with Judges George S. Hosmer and N. A. Mandell of the circuit court of Detroit, had been on an automobile tour for several weeks.

The party had shipped their machine to Buffalo and arrived here. During the night Justice Hooker suffered an attack of heart trouble and decided to return home by train.

He had just entered the railway station when he suddenly fell forward and was picked up dead. The body was shipped to Lansing.

CHARLOTTE EDITOR WEBS

Miss Vivian Eggleston of Hillsdale Is Bride of C. C. Ward.

Hillsdale, Mich., July 11.—Miss Vivian Ione Eggleston became the wife of Clifford C. Ward, editor of the Charlotte Tribune. The ceremony was performed at the home of the bride's parents in the presence of the relatives and a few close friends, Rev. W. F. Jerome, of the Episcopal church, officiating.

The groom is the son of Fred T. Ward, former publisher of the Hillsdale Standard, and vice president of the Eastern Michigan Press association.

SHOOTS SELF IN HEAD

Son of Dr. B. Baker, Once Health Board Secretary, a Suicide.

Holland, Mich., July 11.—Burton Baker, son of Dr. Henry B. Baker, former secretary of the state board of health, committed suicide by shooting himself through the head at his father's home in Gibson, Allegan county. The young man, who was twenty-three years old, is said to have been insane.

The body will be sent to Detroit for examination, according to the dead man's instructions.

STRICKEN IN HIS CAB

Engineer Turns Train Over to Fireman and Collapses.

Flint, Mich., July 11.—Stricken with an acute attack of appendicitis while his train was speeding between Durand and this city, William Fisher, passenger engineer on the Grand Trunk, called to his fireman and then collapsed.

The fireman brought the train on to this city, where another engineer was secured. Fisher was taken back to Battle Creek, his home city, on the next train for operation.

SHOCKING MESSAGE RECEIVED FROM PROF. STANLEY OF THE U. OF M.

Ann Arbor, July 11.—Charles Sink, secretary of the University School of Music, received a telegram Sunday afternoon from Prof. Albert A. Stanley, head of the University School of Music, stating that Mrs. Stanley, his wife, was dead in London. Prof. and Mrs. Stanley left here a month ago for London, where the professor was to represent the United States at the international musical meeting at that place. Mrs. Stanley was apparently in the best of health at that time and her death came as a shock to her many friends in Ann Arbor. About one year ago Miss Elsa Stanley, their daughter, died very suddenly.

OSCAR LAWRENCE CONFESSES TO OFFICER RYAN WHEN HE VISITS PRISON IN JACKSON.

INVOLVES J. GERAGHTY

STORY OF PRISONER THROWS UNPLEASANT LIGHT ON EMPLOYER AND OTHERS.

Eight Hundred Dollars Already Returned—Settlement Will Probably Soon Be Reached.

An important move was made in the Pierce-Lawrence matter, when on Monday afternoon Officer Ryan of this city and O. J. Pierce of Detroit went to Jackson to interview Oscar Lawrence, who is serving time there for retaining the sum of \$1,025 which he found and which was the property of Mr. Pierce. After choicely expressing surprise at seeing Officer Ryan, Lawrence said rather ornately that he would not tell one thing about the affair. Officer Ryan met this announcement by the threat of landing in Jackson further members of the Lawrence family, whereupon considerable information of value was forthcoming.

The most important fact gained was that Lawrence admitted to be true all the circumstances as they have been developing whereas he stoutly denied such knowledge at the trial and was sentenced despite of his plea of not guilty. He has even expected to be paroled. He stated that he had given the money into the care of Arthur Geraghty, and that finally it had been buried by his father in a fruit-canal secured by cement in the cellar steps.

Although the innocence or guilt of Mr. Geraghty in the matter has by no means been established, there is some feeling that the part he played in concealing the money for a time, and equally concealing his knowledge of the transaction, when, as it happened, here was especially one opportunity when this information would naturally have been vouchsafed, has been one which has greatly impeded the efforts of justice at making restoration of the money to its rightful owner. It is quite possible that he, as well as Henry Miller, may be asked to meet a part of the settlement in some manner looking toward the reimbursement of Mr. Pierce.

This case has not lacked sensational details. The money was easily identified because in the roll of bills was a \$500 bill in business college currency from the Kalamazoo business college. It seems that Lawrence offered Henry Miller \$50 to get, this cashed, feeling too sure of his own failure, as when he had passed a \$20 bill from the lot over a saloon-counter to treat all around, the saloon-keeper had promptly kept \$18 out of it to liquidate a former indebtedness. All of the \$1,025 save \$125 is now accounted for. The \$100 loaned to Henry Lawrence has been paid back, likewise the \$100 loaned to the senior Lawrence.

Further adjustments are expected within the next few days. Pierce stated that this \$1,025 was to have been used in purchasing a home for his mother and that this loss deprived him of practically all of his personal property.

BRIDGE TO BE STRENGTHENED AND REPLANKED

The task of repairing the Congress street bridge has been resumed, permission for which has been granted the D. J. & C. by the circuit court. The company is enjoined from building an independent bridge of any description, but they may repair it to the extent which is necessary.

As yet the company cannot tell how long Congress street will be closed as it has not yet been ascertained to what degree the structure needs strengthening. When work is begun on the abutments there may be less or there may be more work necessary than it at present anticipated.

The roadway will also be replanked. Steel bridge rails placed on top of the piles which are being driven will further support and strengthen the structure.

A BOLD MOVE IN THE TRANSPORTATION PROBLEM.

Second only to a safe and elastic currency system is an adequate, efficient and economic transportation system. Both are indispensable in the development of a higher civilization. Interchange of products on such a basis as will adequately reward the creator of the necessities of life and encourage liberal consumption, is the deciding factor in commercial life and activity. The transportation problem then is fundamentally the people's problem and must be treated mainly from the standpoint of the general welfare. The people's fight for a parcels post has educated the people to propose the following radical measure in congress:

"The sub-committee on Post Office and Postroads has taken up for consideration the Lewis bill, which provides for condemning and purchasing the express companies and adding them to the postal system, and establishing a complete system for the quick transport of packages and the eatable products of the farm and truck garden, etc. At their last conference in Washington the representatives of the business men of the country and of the farmers' granges asked Congress to establish such a system, and representatives of these interests were present at the hearing before the committee.

"There are two main reasons why the express companies must be added to the postal system," said Mr. Lewis in his argument. "First, the express company service does not reach beyond the railroads to the country or the farmers, which the post office does, through the rural free delivery, which is waiting with empty wagons to receive the express packages and take them to the country stores and the farmers, and carry back to the towns and the cities the produce of the farms and truck gardens for the people to eat, at living prices. Second, the contracts of the express companies with the railroads give them an average transportation rate of three-quarters of a cent a pound; and with this rate the express charges by post would be reduced from two-thirds to one-half on parcels ranging from 5 pounds to 50 pounds, and about 28 per cent on heavier weights, as a consequence of the co-ordination of the express company plants with the post office and rural delivery, and the elimination of the express company profits, which are averaging over 50 per cent on the investment.

"The express companies are positive hindrances and obstacles to the business of the country. The average charge for carrying a ton of express in Argentina is \$6.51, and for the countries of Europe \$4.12, while the average express company charge in the United States is \$3.12. They charge five times as much to carry a ton of express as a ton of freight in other countries. Here the express companies charge 16 times as much. Of course, these charges simply prohibit by half or more of the traffic in the United States. Our average is less than one hundred pounds per capita, while that of the other countries is over two hundred pounds per capita, although we have far greater demand for quick transport on account of our longer distances and more extensive business."

"We cannot have an efficient parcels post. The Government cannot conduct it on mail railway transportation rates, at over four cents a pound, in competition with the express companies' paying but three-fourths of a cent a pound, excluding the weight of equipment in both cases; which enables the express corporations to pay over fifty per cent in profits to themselves, although rendering no service whatever to the farmers and to points off the railways."

Mr. Lewis has worked out a system of "zones" based on scientific methods, from which a five pound package, for instance, can be sent 136 miles for 1¢ cent, while the express companies now charge 25 cents and more for like distances; from Calais, Maine, to San Francisco, will cost 30 cents for five pounds, and \$2.42 for 50 pounds, as against the express company charges of 85 cents and \$7.50.

With the rural free delivery a part of the express system, an agricultural parcels post will market the farmers' produce and save them the time and labor of marketing their truck. Rates even lower than those quoted are promised, by having the rural and city carriers assemble the small consignments of the individual shippers and utilize the fast freight service on trunk lines, with passenger trains on the branch roads to hurry the stuff to destination, at the regular fast freight rates. The postoffice will recoup itself by securing carload rates for the assembled shipments, while the small shippers get their advantage over present conditions by having

their collect-and-delivery system for practically nothing.

This system is now in vogue in Germany, and shippers, Mr. Lewis shows, pay only double freight rates, less than a tenth of the express rates here. The food problem, the "high cost of living," according to Mr. Lewis's figures, is largely the result of the want of a proper articulation of our transportation with the rural sources of supply. While prices are often prohibitive to the consumer, crops may be rotting at the place of production, for want of a REAL express service.

NEWS BRIEFS

STATE

KALAMAZOO—President A. Gaylord Slocum of Kalamazoo college since 1892 has been granted a year's leave of absence by the board of trustees.

GRAND RAPIDS—Michigan is to have its own great Land and Apple Show this fall. It will be here in the Coliseum the second week in November under the joint auspices of the Western Michigan Development Bureau and the Grand Rapids Evening Press.

KALAMAZOO—State Food Inspector Wm. Andruff is investigating charges of milk adulteration in Kalamazoo. Tests show plainly that the milk is given the "water treatment." **SHEFFIELD**—The prompt action of a Boy Scout led to the arrest of two men who were committed for trial on a charge of highway robbery. A Scout patrol leader saw the assault, gave chase, first on foot and then on bicycle. After pursuing the men for a mile he met a policeman, who caught the two prisoners after a long run. Other Scouts bathed the injured man's wounds and assisted him home.

FLINT—Mrs. Geo. Spaulding of this city has a newspaper which is more than 110 years old. It is the Ulster County Gazette, published at Kingston, N. Y., January 4, 1800. It contains an account of the funeral of George Washington. The foreign news is all several months old. One item states: "For Sale—A young wench. Good habits and a worker. Inquire for information regarding the wench."

JACKSON—This morning a crew of men from the fire departments started a general crusade against the dirty and rubbish filled alleys of the business district. Alley fires have been frequent.

KALAMAZOO—Herbert L. Stetson, dean of Kalamazoo college, has been selected by the board to become acting president during the ensuing year, in the absence on leave of President Slocum. Dr. G. A. Williams was appointed secretary to succeed Prof. S. G. Jenks.

NATIONAL

WASHINGTON—The construction of the buildings for the departments of state, commerce and labor and justice here will be one of the few times in history when a group of such importance has been conceived and studied as a whole. In the exterior design the three buildings are similar, each employing columns three stories in height set upon a windowed wall, an architectural basement. It is likely that white marble will be used.

MINNEAPOLIS—Dr. George Vincent, formerly dean of Chicago University, will be formally inaugurated into office as president of the University of Minnesota, Oct. 17.

WASHINGTON—The largest wicker chair ever constructed is to be presented President Taft.

CLEVELAND—A movement has started here for the formation of a national independence day association, to include all the cities of the United States.

WASHINGTON—Representatives of Great Britain, Russia, Japan and the United States have signed an agreement which will preserve and protect fur seals in the north Pacific ocean for 15 years.

RICHMOND, Va.—Work on the plans for a greater Richmond College has begun. The new college will be located several miles to the west of the city on a tract of 284 acres.

FOREIGN

LONDON—By desire of the king the gates of the three archways in the new admiralty buildings, at the entrance of the mall from Charing Cross were opened on June 24 for vehicular traffic. This is the gateway through which the king passed on his way to the coronation service.

LONDON—A certain singer at Wells in Somerset was invited to attend the coronation in acknowledgement of his unique record. He sang in the abbey choir during the reign of George IV. and of William I. and at the coronation of Queen Victoria and Edward VII.

HOT WEATHER HURTS THE SKIN

Poisonous perspiration causes rashes, hives, blotches, pimples and prickly heat, often the beginning of serious skin troubles.

To wash away the poison entirely, apply a simple solution known as D. D. D. Prescription for Eczema. D. D. D. is generally sold in \$1.00 bottles, but for 25c we can now give you enough to prove that the very first drops soothe and heal the inflamed skin as nothing else can.

We vouch for the wonderful properties of D. D. D. for we know that it brings instant relief for all kinds of skin trouble.

NEWS FROM OVER THE COUNTY

O O O O O WILLIS O O O O O

Willis, July 11.—Born, to Mr. and Mrs. Bert King, July 5, a baby girl. Mrs. James Long's daughter and two children of Detroit, also a son's wife and two children of Ypsilanti, have been spending the week with Mrs. Long.

Mr. and Mrs. Martell of Sumpter and Mr. and Mrs. Berger of Detroit spent Wednesday evening at David Russell's, Sr.

Mort Day, oldest son of Mr. and Mrs. Wm. Day, passed away at his father's home, east of Willis, Saturday evening, July 8. He has been sick about four years and has been confined to the house a part of the time. He was a quiet boy and well liked by all who knew him. He was about thirty years old. He leaves a father, mother, three brothers and three sisters. Interment was in Udell cemetery.

Walter Long and family, near Oakville, also Mrs. Blanche Garlie, visited their parents, Mr. and Mrs. James Long, Sunday.

Mr. and Mrs. Claude Moore and Roy Smith were callers on Walter Bevier and wife.

O O O O O CONE O O O O O

Cone, July 11.—Miss Wanda Lembrich is attending summer school at Ypsilanti.

Miss Evelyn Boutell of Ypsilanti is visiting her grandparents, James Hanlon, and family.

Maude and Vera Zeluff, Ray Lembrich and Milo Davis attended the circus at Ann Arbor last Fourth.

Mr. and Mrs. Frank Raymond were Dundee visitors Tuesday.

Miss Teresa Plunkett of Detroit is spending a month's vacation with her parents, John Plunkett, and family.

Floyd Smith and wife of Milan are spending the week with the latter's parents, Geo. Caswell, and family.

O O O O O SALINE O O O O O

Saline, July 11.—Elwood Rogers was severely injured in a runaway Thursday night when returning from his day's work in town. When about a mile out he met an auto which frightened his horse. He was thrown out and it is thought seriously hurt. Arthur Wood, who happened to be on the road in his auto, took Mr. Rogers to Ann Arbor.

Mrs. Raab, a former Saline resident but now of Washington, is visiting Saline friends. Mr. Raab expects to meet her here in a few days.

Mr. and Mrs. A. M. Humphrey are taking a two weeks' trip up the St. Lawrence.

Miss Parrish, who taught in the Saline union school two years ago, has been the guest of Mr. and Mrs. Willis Fowler for a couple of days.

Mrs. Martin Fuoss and daughter, Hazel, Dr. and Mrs. Woodbridge and Mr. and Mrs. Julius Lindenschmidt are spending a week at Whitmore.

Miss Julia Lederer returned last week from Milwaukee where she has been attending school.

The Union Sunday school picnic held in the Arbeiter park the Fourth was a great success. About 400 were there. New and interesting games and contests had been planned and numerous prizes were awarded to the lucky boys and girls.

Mrs. Dan Drake fell from a cherry tree Wednesday and sprained her ankle severely. Faye has come home from Ann Arbor.

A large crowd from here attended the circus in Ann Arbor Tuesday.

Mrs. Jerome Lashier, a former Saline resident, died at her home in Milan last week and was brought here Monday for burial in Oakwood cemetery.

COMFORTING WORDS.

Many an Ypsilanti Household Will Find Them So.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of Ypsilanti readers.

John P. Burkheiser, 15 W. Congress St., Ypsilanti, Mich., says: "I had more or less trouble from my back and kidneys for some time and there was often a constant, dull ache across to stoop. That my kidneys were disordered and the cause of my trouble was shown by irregular passages of the kidney secretions. When I chanced to hear of Doan's Kidney Pills, I procured a box at Weinmann-Matthews Co.'s drug store and upon using them as directed received great benefit. This remedy acted as a tonic to my kidneys and made me feel better in every way. There is no question about Doan's Kidney Pills living up to the claims made for them."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and the loins that made it difficult for me take no other.

Men's Soft Shirts with soft detachable collars—Blues, Grays, White and Tan. Sullivan-Cook Co.

Boys' Waists, blue, black, white and black and white stripe, with and without collar attached. Good ones at 50 cents. Sullivan-Cook Co.

MICHIGAN BRIEFS

Vicksburg Bank's Final Dividend.
Kalamazoo, Mich., July 11.—When S. E. Monroe signed 1,200 checks, representing \$10,000, he accomplished the final work in connection with the settlement of the affairs of the Exchange bank of Vicksburg, which failed five years ago. The final dividend will be distributed at once, the creditors of the institution receiving nearly 95 per cent of the amount they lost.

Noted Acrobat Is Dead.
Grand Rapids, Mich., July 11.—Chas. Schmitt, one of the noted acrobats of the circus world, who learned his profession on sawdust piles in this city when a young lad, is dead in Portlar, Ore. He was forty-five years old. For years he was connected with the acrobatic troupe known as Leondor brothers and also appeared on the vaudeville stage.

Seized with Cramps; Drowns.
Grand Rapids, Mich., July 11.—Ward Ingersoll, the only son of Byron Ingersoll of Sparta was drowned at High Lake near here. He was on his way home from a neighboring farm where he had been at work and took a plunge in the lake. He was taken with cramps and a small boy who watched him from the bank was unable to aid him.

Stetson Will be Acting President.
Kalamazoo, Mich., July 11.—The announcement has been made by trustees of Kalamazoo college that Herbert L. Stetson, dean of the institution and former president of the Des Moines college, will next year be acting president.

Young Woman Attempts Suicide.
Ionia, Mich., July 11.—Mary Ramsom, a nineteen-year-old girl whose home is in Ithaca, attempted to commit suicide in her room at the Bailey house by taking acetone. She will probably recover. No reason is known for her act.

Alleged Wife Deserter Arrested.
Flint, Mich., July 11.—Bert Fogelsanger, a local factory employe, was taken to Bay City by a police officer from there. He is wanted on a charge of wife-desertion.

A BALTIMORE BEAUTY.
Her Engagement to Alfred Vanderbilt Often Rumored.

Mrs. Smith Hollins McKim is regarded by many persons as the most beautiful woman in New York society. She is a Baltimorean by birth, a daughter of Captain Isaac Emerson and heiress to much wealth. When about seventeen she married Dr. Smith Hollins McKim. She was granted a Reno divorce from him last October.

Mrs. McKim is very much interested in horses. She attends all the important exhibitions. Society has persistently whispered that she might marry Mr. Alfred Vanderbilt, but a number of other society men are equally attentive to the fair divorcee, who so far has shown no intention of relinquishing her recently won freedom. Her beauty is of the blond order, and she is clever as well as beautiful. Should she become Mrs. Vanderbilt she is quite charming and brainy enough to assume the social leadership in New York which no one seems clever enough to capture since the death of the late Mrs. Astor.

Northfield, July 11.—Wm. Colbridge who has been spending the past few days in this vicinity visiting friends returned to his home at Bay City, Tuesday.

James Brown returned to Jackson, Tuesday, after spending several days with his parents, Mr. and Mrs. Fred Brown.

The little son of Mr. and Mrs. Wm. Scoop fell from a porch railing last week and was badly bruised but no bones were broken.

Crops are looking fine in this vicinity but are badly in need of rain.

Miss Catherine Leland of Birmingham is visiting Miss Madlyn Leland of Leland.

James VanAtta, who has been ill, is much better.

Mr. and Mrs. Freeman A. Lincoln and son, Rodney, spent Sunday last with the latter's uncle, P. L. Townsend, at Dixboro.

C. Van Horn and granddaughter spent the latter part of last week at Howell.

Mrs. J. Van Horn of Jackson and Mrs. F. Braun were Friday callers at Mrs. M. Geigher's.

Mrs. A. Tyler spent Sunday last with her daughters, Mrs. Wm. Duncan, at Rushton.

Miss Grace Geigher was an Ann Arbor business caller Saturday.

Mr. Ambaugh who has been quite ill from rheumatism is better.

Rev. Westfall and Wm. Geigher and wife took Sunday dinner with Mr. and Mrs. M. Geigher.

The Leland M. E. Aid society met with a small attendance last Thursday afternoon with Miss Ida Worden.

Ray Duncan was a Northville business caller Saturday last.

Mrs. James Brown of Jackson is visiting her parents, Mr. and Mrs. C. Van Horn.

Mrs. F. Duncan and daughter, Bess, spent Sunday afternoon with the former's son, Wm. Duncan, and family, at Rushton.

Milton Brown and wife of North-western Canada have returned to Michigan to remain through the threshing season.

Mrs. Milton Brown is spending the summer with her parents, Mr. and Mrs. Wm. Gates, of Salem.

COL. CODY IS A FRIEND OF BOY SCOUTS

Colonel William F. Cody, famous as "Buffalo Bill," is interested in the Boy Scouts of America. He gave an interesting talk recently to the Scouts in Salem. He urged the boys to become good Scouts that they might pick a good trail through life. He said: "Let me tell you, boys, that if you are to be good men, brave men, you must stick to the rules and laws of your organization, and you must follow the example of Gen. Baden-Powell. Honor your parents. Obey them. Do your duty always. Be polite and kind, for these mark the true gentleman. Carefully pick your path through life, and thus leave a trail in which other Scouts may follow. The old scouts are passing out of sight down the long, lone trail, but they look behind to you, who will be the men on whom the world of tomorrow will depend. Be true, boys. I wish you every success with all my heart, my lads."

Scouts Must Be Clean.
The Boy Scouts of America are required to keep their finger nails clean, and attend to their teeth. The new Scout Law imposes these duties upon them for Plank No. 11 says: "A Boy Scout is clean; he keeps clean in body and thought; and stands for clean speech, clean spirit and clean habits."

The boys have received directions for the care of their finger nails, and are told that they are cut once a week and cleaned daily. It is hoped that the hundreds of thousands of boys stimulated by the new Boy Scout principles will exhibit clean, glistening finger nails hereafter. Special instructions also are given the boys for the care of the teeth. Boys are taught that many diseases are spread because of failure to clean the teeth and are told that clean teeth never decay. Accordingly boys are urged to give careful attention both morning and evening to their teeth.

Women Suffering from any form of illness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women. A woman can freely talk of her private illness to a woman; this has been established between Mrs. Pinkham and the women of America which has never been broken.

Never has she published a testimonial or used a letter without the written consent of the writer, and never has the Company allowed these confidential letters to get out of their possession, as the hundreds of thousands of them in their files will attest.

Out of the vast volume of experience which Mrs. Pinkham has to draw from, it is more than possible that she has gained the very knowledge needed in your case. She asks nothing in return except your good will, and her advice has helped thousands. Surely any woman, rich or poor, should be glad to take advantage of this generous offer of assistance. Address Mrs. Pinkham, care of Lydia E. Pinkham Medicine Co., Lynn, Mass.

Every woman ought to have Lydia E. Pinkham's 80-page Text Book. It is not a book for general distribution, as it is too expensive. It is free and only obtainable by mail. Write for it today.

WALSH TAUGHT LANGFORD HOW

Boston Bantam Developed "Tar Baby" From Janitor to Fighter.

SAM TOOK MANY WHIPPINGS.

At the Start He Was an Easy Mark For Walsh, but Improved Rapidly and Is Now One of World's Best Pugilists.

Back in 1902 Sam Langford, the colored heavyweight of Boston, now the most feared battler in the world outside Jack Johnson, used to get beaten up every day by a little mite of a man who weighed less than 115 pounds. Samuel was then a lightweight. Wasn't

SAM LANGFORD AND THE BOY WHO TAUGHT HIM HOW TO FIGHT.

that an auspicious beginning for such a fighter as the "Tar Baby" has come to be?

Jimmy Walsh, ex-bantam champion, related the story recently. Jimmy was the boy who used to dispense the wallopings to Langford. "I used to give him a lot of them, believe me," he said. "Sam was just an awkward fellow and didn't know a thing about fighting, and I was fairly clever then."

"Sam was working as a janitor around the gymnasium in Boston. He got the notion he wanted to be a fighter. So he went to Eddie Keavin and told him about it. Eddie assured him he could put the gloves on with me. The first afternoon I showed him all the fireworks a pair of mittens can produce. But Sam was game and watched the sparks with fearless mien. After that he stopped everything for several months, but kept doggedly to his task. I used to show him tricks, how to hit, how to feint and how to get inside of punches. In the end he was able to handle himself pretty well."

"About this time they had an amateur tournament in Boston, and Sam entered it. He won from Jack McVicker in three rounds. After this he began his professional career and beat Joe Gans two years afterward, but received no credit for it. He began to grow the next year and went to fighting welterweights. Now he is more than a middleweight and the best man in the game outside of Johnson."

DISSERTATION ON THE SHIRT

Writer Uncorks Vials of Wrath in a Few Indictments of Uncomfortable Modern Garment.

The onward march of civilization has its obstacles.

Shirts being made for man and not man for shirts, every time a man gets a new shirt or one comes back from the laundry the moral uplift needs the application of the safety brake and the emergency clutch to keep us from dropping into the cellar again.

Shirts are made of various kinds of materials. After the sewing is finished they are left for a few hours in a strong mixture of glue and concrete. This fastens the back to the bosom and sticks the sleeves together. Buttonholes are then made in the n. e. and, and the band is then steeped in cement so that the buttonholes cannot be opened. The bosom is then adorned with buttons. These buttons are sewed on with one weak thread, so that when you try to button the shirt after having pried it apart with a paper knife and strong language, the buttons will fly away merrily.

Shirts that are laundered are always sent back with the lower button buttoned in, and all the buttonholes glued tight.
Dress shirts are made with veneered bosoms, with little round holes where the studs are only supposed to be placed. These bosoms are absolutely inflexible, and the studs cannot be inserted without the aid of a sledge hammer, which is damaging to the disposition.

The man who will invent a buttonless shirt, which cannot be stretched in the neckband, will earn a monument which will be illuminated at night.—Chicago Evening Post.

The Modern Wash-day

Time was when The Wash was a weekly nightmare, wash-day dinner a by-word.

The New Perfection Oil Cook-stove has changed all that. Once the wash-boiler is on the stove, it leaves you free to attend to the dinner or any other work.

You can move a New Perfection where you please and light it in a moment. It requires no attention after that. A single gallon of oil lasts all three burners seven hours or more. No coal or wood to carry; no fire to feed; no soot nor ashes. It keeps a kitchen or laundry cool and clean. It cooks to perfection, with the least trouble and expense.

Made with 1, 2 and 3 burners, with long, turquoise blue enameled chimneys. Handsomely finished throughout. The 2- and 3-burner stoves can be had with or without a cabinet top, which is fitted with drop shelves, towel racks, etc.

WE KEEP TALKING HOOSIER CABINETS

For a fact, if the women only realized what a saving of steps the HOOSIER brings about, every home would have one.

This hot weather is bad enough, when you can sit out on the porch in your Old Hickory. But to spend a couple of hours in the stuffy kitchen more than you need to, simply because you lack a HOOSIER, seems so foolish. Any one can have a HOOSIER—a dollar a week will do it.

The wise buyer gets his porch furniture now. We will not carry it over. Money talks.

FORMER YPSILANTI MAN DIES SUDDENLY AT HOME IN WEST

J. H. Hopkins, jr., of this city received word this morning that his father, Rev. J. H. Hopkins, had passed away Monday evening at his home in Denver, Colorado. Recent letters had reported Mr. Hopkins as quite well, so that it is probable his death was due to heart trouble. He is well known in Ypsilanti, having resided in this city for a number of years, during which time he held the position of principal of the high school.

Mr. Hopkins was born near Leesburg, in Virginia, October 19, 1834, and received his education for the Methodist ministry in Meadville, Pennsylvania, graduating from Allegheny College at the age of 18. Going from that state to Iowa, he was an itinerant preacher for four or five years. He left the ministry to accept the chair of ancient languages in the Iowa Wesleyan University at Mount Pleasant, and never again held a regular pastorate, though he continued to preach at intervals. It was while he was at Mount Pleasant that he met and married Miss Anne Whiting, who had come west from the state of New York.

In 1871 Rev. and Mrs. Hopkins came to Albion College, where in different capacities he remained thirteen years. He taught the ancient languages, he was the vice-president of the college and, upon the death of Dr. Joslyn, became its acting president and held this position for two years.

At the close of his connection with Albion College, Mr. Hopkins came to Ypsilanti and filled the position for several years of principal of the high school. Seven years ago with his wife and several of his children he went to Denver, where he has since resided and where doubtless he will be buried by the side of his daughter Kate, whose death occurred four years ago.

Mr. Hopkins is survived by his wife and eight children: Sarah of Denver, Colo.; Robert, of Milwaukee; Sue, of Cocoa, Florida; J. H. Hopkins, jr., of Ypsilanti; Mrs. Will Mosher, of De Queen, Arkansas; Sophia, of Denver; Henry, of Brooklyn, N. Y., and Bess, of Denver.
